Education

2013 – 2019 **Masaryk University**, *Brno*.
Specialization: Applied informatics
I wasn't able to complete the my degree due to personal reasons.

2009 – 2013 **High school**, *Gymnázium Párovská 1*, Nitra.
Specialization: Mathematics and informatics

Projects

2018 **SportsClub**, *School project for course PA165 Vývoj systemu v jazyce Java.*.
Simple web application created with collaboration with other students. Application manages teams and players.
Application was created using technologies: Hibernate, PostgreSQL, Spring.
Available at `https://github.com/HonzaCech/PA165-SportClub`.

2015 **PutlockerSerials**, *Chrome plugin*.
For checking last seen and new episodes on Putlocker.
Availableble at `https://github.com/AdamKrajcik/PutlockerSerials`.

2015 **WineCellars**, *School project for course PV168 Seminář z programování v jazyce Java*.
Application for administration of wine cellars. Application connects to a database and performs actions over it.
Available at `https://github.com/AdamKrajcik/WineCellars`.

Job experience

2017 - 2019 **Intern Quality Engineer**, *Red Hat Czech s.r.o.*.
In collaboration with a colleague I was responsible for testing, reporting and sometimes fixes for Undertow subsystem of EAP (Enterprice Application Server).
My further responsibilities were creating jobs to run tests on Jenkins.
